### NOPG GOALS AND OBJECTIVES

The Oil Painters Guild of Southwest Washington (NOPG) Bylaws form the basis for these goals and objectives. In a workshop setting the members reviewed the Bylaws and identified the topics they believed should be incorporated into the goals and objectives of NOPG.

### ARTIST DEVELOPMENT

To be an artist is to be on a continuous journey of exploration. Having opportunities to learn more about oil painting methods and techniques is essential. Having opportunities to show your work to one's peers and the public is also deemed essential.

### GOAL:

NOPG seeks to support and encourage its member artists and other oil painters in the community.

### **PUBLIC EXPOSURE**

Exposure to the public is vital to the artist. It affords the feedback that many artists seek to gauge the acceptance of their work by the public. Beyond a personal desire for public acceptance is the broader social benefit of providing the public with an art appreciation experience. This could motivate the public to further appreciate the arts and the artists that live around them. Public exposure is a two way street.

**GOAL: NOPG seeks to increase public awareness of oil painting and the arts in general.**

### **OBJECTIVES:**

1. We will seek every opportunity to portray the diversity of painting styles of NOPG members.
2. We will maintain a supply of brochures that offers general and membership information about NOPG.
3. We recognize the renewed popularity of painting “en plein air” (painting directly from nature, outdoors) and will make efforts to encourage our members to join in regular paint-outs and work to gain a reputation for NOPG in this regard.
4. Broaden the exposure of plein air painting by working to organize inter-art associations paint outs.
5. We will encourage our members to create prints of their work in order to create affordable representations of their art that would allow NOPG to sponsor print shows.
6. We will organize NOPG exhibitions around an annual theme toward which we will encourage member artists to produce new works of art. The theme will serve as the center piece to our publicity for the exhibition.
7. We will work to maintain NOPG recognition in affordable community directories.

### **A PUBLIC PURPOSE**

A public purpose is the hallmark of community organizations. Giving back to the community that supports the arts and its artists is a small way to achieve a public purpose. With the arts no longer a significantly funded dimension of public education there is an opportunity for established artists to help mentor younger artists in our community.

### **GOAL:**

NOPG seeks to find roles to play in the community where our resources can fulfill needs in charitable and educational purposes.

### **OBJECTIVES:**

1. We will work with the other art associations to encourage an annual art auction.
2. We will work with local schools and other community based organizations to assist providing instruction in children art classes.
3. We will develop an exhibit showing the oil painting process in studios, schools and local events.
